STATE LEGISLATURE TO QUIT THIS MONTH

Appropriation Bill To Be Rushed
to Completion To
Shorten Session

COLLINSVILLE, March 10.—That
legislature leaders plan adjournment
of the present session the last of this
month is a rumor current today among
the sol'ns.

House officials said it is planned to
introduce the big biennial appropri-
ation bill in the house about March 10.
It has been customary to end the work
of the Ohio legislature within a day
or two after the big appropriation
bill passes the house and senate.

It is believed that the session will come
to a close within a week or 10 days
after the big appropriation bill is in
order to be introduced upon the fact
that the senate and house finance com-
mittees have been meeting in joint
sessions since the legislature opened.
These joint sessions, it is claimed will
end about three weeks off the session.

The beginning of the end was
noted when the house late yesterday
empowered its rules committee to serve
as a joint calendar committee.

The senate rules committee began work
as a joint calendar committee last

week.

London fears loss of Gold to America
reads a headline over a London financial
story. Decidedly odd frame of mind, this
of our British cousins right at the threshold of
the tourist season!

Five hundred rum shops have been closed

ment of the Jones Law, but even at that
there's hardly a chance for the metropolis
being mistaken for a desert.

Since it has been developed that 716 bal-
lots were counted in the recent election in a
Chicago precinct at which only 715 persons
voted, the value of Windy City elections
is bound to appear somewhat problematical.

A Hoosier woman is suing two visitors

front by their plane. Cheap enough, we would
say, for an unconventional call like that.

There's no occasion for laughter over the

according to the number of their children.
Do we not do much the same thing in the
cases of all income taxpayers?

A purse containing the body of a four

Another chapter in the story of rescues at
sea by United States vessels. The navy de-
partment has received word of the rescue of
forty-three men, the officers and crew of the
Japanese steamer Lankoku Maru by the
United States ocean going tug Snp, which
answered the Japanese steamer's call from
170 miles southwest of Okinawa. Ign't about
time for the people of the United States to
come to a higher appreciation of the splen-
did worth of their seamen?

A Speed Marvel.
While gutter speed has been attained by
man in the air, the feat of Major H. O. D.
Segrave in driving his Golden Arrow over
the ocean speedway at Daytona Beach 110
miles at the rate of 160 to 165 miles an hour
is almost incomprehensible to one who stops
to figure what such a speed means. That
means a mile in 1 1/2 seconds. It means
going a distance equal to the circuit of a
half mile track in less than eight seconds.
Let the reader pause a moment and watch
the second hand of his watch. In less than
eight of its ticks he traveled half a mile
in the time that the second hand takes to
travel one fourth of the way round. His
rate went a distance equal to two circuits of
a half mile track in less than eight seconds.

Very Sensible Changes.

Working hours are to the effect
the Mr. Hoover already has aban-
doned his idea of a 40-hour
week, and the reception of a long
line of visitors and letters and the sec-
ond 15th of the 15th. The reception of
distinguished guests. The first departure
came in 1912 to through announce-
ments that the reception to the diplomatic
corps is held. On that occasion, in
stead of greeting the visitors as they passed
by, in line, he is right and Mrs. Hoover
passed from group to group, chatting in
friendly talk. I have been greeted

We have not had to the Washington
fear of seeing merit in that which is past
to the disadvantage of that which is past
in all capitals and especially to
Washington where the moment, the king
is dead, long live the king is possibly
stronger than in any other but we really be
here that both departures from the old was
are very sensible ones.

Certainly the information of the reception
to the diplomatic corps is infinitely to be
preferred to the stiff formality of the method
of greeting it supplanted. And just as cer-
tainly the reception of residents tourists and
sightseers one day or possibly two days a
week is far better than the plan of daily re-
ceptions.

To say that the first cost of electing a pres-
ident is at least \$2,000,000 to the country
is very conservative. It is probably twice
that for the expenses of all parties and the
time of the individuals taking part in the
campaign must be included but let us put it
at \$3,000,000. The presidential term
is four years and hence we have in a pres-
ident one whose original cost to the country
is equivalent to \$3,000,000 annually.

Can a man who costs \$3,000,000 a year
afford to take the time and effort necessary
daily to greet a long line of visitors? The
presidency at the best is a killing job.

Should the extra strain of daily receptions be
added to the burden of things and problems
absolutely essential? Can the country with
out considering the human phase of the mat-
ter afford to place this extra burden on a
president? Can he afford to take from him
this time which might be given to rest to
break the strain which is from early
morning to late at night and is often carried
by him through the hours from dark to
dawn? It may be urged that other pres-
idents have stood the strain yes and it
helped to wreck the most of them. The case
of Mr. Coolidge may be cited as that of one
who apparently has suffered no ill effects
from his tenure in the presidency. The
answer to that is that Mr. Coolidge is one
man in 120,000,000 capable of standing the
strain for the reason that he is probably the
one man in all the 120,000,000 who capable
of holding the presidency is not only de-
signed by nature but also self-trained to
withstand the tensions entailed by the pres-
idency.

And it may be said that in this respect the
dispositions of Mr. Hoover and Mr. Coolidge
do not run side by side.

Two women are now known to have figured
in the killing of Thomas Walsh the former
bodyguard of Arnold Rothstein in a Miami
beach hotel. Do not women figure in some
way in most killings?

A Japanese astrologer warns that women
will cause trouble for all men born in
1929. Such a blind man with one arm
tied behind his back could safely predict
that and it's all.

Merely to be content is not enough. This is

I do not question that many persons are not
hurried to work in which they are unused. Circum-
stances and necessity are holding them where they
don't want to be.

This is unfortunate because it causes discon-
tent, impatience and humor and unwillingness
to work.

All these causes have the effect of under-
mining the will to work.

The course of this is not necessarily true.
Lots of people, though not at job apparently
submissively to the whole undertaken.
There is no mental rebellion against it. It is
just done and that's all.

MAKE MORE MONEY

Heathy, vigorous men and women are keeping themselves in perfect condition nowadays because they've learned the secret of the exerciser in the vest-pocket box for a dime. Cascarets give you bowels as much exercise as you get from an hour's hard play. They give you lasting relief from headaches, biliousness, constipation, indigestion, etc. Each time you use them, your bowels become stronger. Oils, salts and ordinary laxatives produce only mechanical or chemical action, which actually weakens the bowels.

Cascarets are made from Cascara Sagrada, which stimulates the peristaltic action and exercises the bowel muscles. Nothing else does this. That's why Cascarets are selling at the rate of 20 million boxes a year.

Take Dr. Edwards' Olive Tablets remove them gently, tone up the system, clear the eyes and complexion and bring back normal vigor. A compound of vegetable ingredients, prescribed to patients for 20 years in place of enemas. They act easily and quickly on bowels and liver.

Take Dr. Edwards' Olive Tablets and keep fit for the daily grind. Thousands of happy men and women use them regularly as an aid to success in their everyday tasks. Know them by their olive color, 30c. 60c—Adv.

"It pays to have a 'second best' of everything"

When I buy a new dress, says a well-to-do woman, "my last dress becomes my second best, and so with hats and shoes. I felt the same way about cars, and when it came time for us to buy a new car, I persuaded my husband to keep the old one—as a 'second best' for me. So now I have a car all to myself—and what a convenience it is!"

Keep your present car as a second car

An economical way to give your family the advantages of a second car: Keep your present car when you buy your new car—instead of trading it in.

More and more families are doing this each year. The second car keeps mother and children together, makes household purchasing more economical, enlarges in every way the family's field of opportunity.

TOWNSEND EXPECTS GOOD TOURNAMENT

Competition Keener, Basketball Better This Year, Commissioner Says

COLUMBUS, March 13.—"We expect to have the most successful tournament in history," was the statement made today by H. H. Townsend, commissioner of the Ohio High School Athletic association, speaking of the state high school basketball finals tournament to be held here Friday and Saturday.

"Competition is getting keener every year, and the brand of busi-

ness played is better with each tournament," Townsend continued. "Basketball seen by the fans at the state trials this week, will be much better than was displayed last year," he added.

COLUMBUS BID STRONG FOR A. B. C. PIN MEET

CHICAGO, March 13.—Columbus, Ohio, today was reported leading trial cities in the race to land next year's tournament of the American Bowling Congress. The question will be settled at the annual meeting of the association here Friday.

James A. Wilson, president of the A. B. C., arrived yesterday from New York by airplane to attend the meeting. Buffalo is understood to be Columbus' chief rival for next year's meet.

OFFICIALS FROWN ON PERSONAL PROBE

Suggestion That Prohibition
of Congressmen Be Investi-
gated Not Favored

WASHINGTON, March 13—Congress doesn't want any investigation of the "drink-wet, vote-dry" habit in Congress.

Suggestions that President Hoover's prohibition-fighting committee investigate the manner in which Congress itself observes the dry law today met with opposition.

"An investigation of the personal habits would only tend to discredit Congress and would render no help in solving the prohibition problem. The president's committee should direct its inquiry to determine how enforcement can be improved and make more effective. Any inquiry into public conduct by Congressmen would be following a red herring."

This sentiment was voiced by a wet leader.

"Tears—the rain of woman's sorrows and joys."

Membership Increase Report-
ed at Meeting Held in
Trinity Church

One hundred and fifteen members were present at the monthly meeting of the Royal Sunday School class of Trinity Baptist church, held last night in the church parlor. Business reports, made at the meeting, showed that 22 new members had been enrolled in the class since the last meeting and that 107 home calls had been made in February. Rev. Lawrence A. Wood, pastor of the church, led the devotions at the meeting.

Following a short business session a varied program was presented by members of the class. Mrs. Glenn Mills gave three readings, "A Colored Lady in the Telephone"; "The Dream of a Colored Man in the Glass Car," and "A Naughty Zeil." Following the readings Mr. Earl N. Hall sang, "The Mission of a Rose," "The Care of Yesterday," and "A Four Leaf Clover." She was accompanied at the piano by Miss Grace Deere.

Concluding the program Mrs. Frank Stratton gave a short talk on her trip to Japan. Stanley Hedges group in the class, with Mrs. L. O. Clegg as chairman, was in charge of the entertainment program and Fred Braden's group with Mrs. Sally Stoner as chairman, was in charge of the refreshments, served at the close of the program.

The next meeting will be held about the middle of April at which time the annual election of officers will take place.
